Summary

I am a Full Stack Developer with a strong foundation in JavaScript, React, Node.js, and modern web technologies. Experienced in designing, building, and optimizing scalable, high-performance web applications. Driven to contribute to impactful products and collaborate with cross-functional teams in fast-paced, engineering-driven environments.

Skills

Programming: JavaScript (ES6+), Java, Python

Frontend Development: React.js, HTML5, CSS3

Backend Development: Node.js, Express.js, REST API Design

Databases: MongoDB, Mongoose ODM

Development Practices: JWT Authentication, API Security, Performance Optimization

Version Control: Git, GitHub

Projects

E-Commerce Website | *MERN Stack*

October 2024 – December 2024

- Built and owned the end-to-end development of a MERN-based e-commerce platform, supporting **1,000+** users with secure authentication and role-based access control.
- Designed backend APIs using **Node.js** and **Express.js**, applying rate limiting and security headers to reduce potential abuse by **60%**.
- Improved application performance by **40%** through frontend asset optimization and efficient API payload design.
- Developed an admin dashboard for managing products, orders, and users, reducing manual operational effort by **50%**.

URL Shortener | *MERN Stack*

November 2024 – December 2024

- Independently designed and developed a scalable URL shortening service using **React**, **Node.js**, **Express**, and **MongoDB**, supporting **10,000+** short URLs.
- Implemented a collision-resistant short-code generation system with indexed database lookups, achieving average redirection latency of **under 120 ms**.
- Built basic analytics to track click counts, timestamps, and referrers, enabling insights into user engagement patterns.
- Secured backend endpoints with input validation and rate limiting, reducing abuse attempts by **50%** during load testing.

Awards & Certifications

- **Naukri Campus Young Turks – 2024 (Merit Certificate):** Achieved an All India Rank of **16,613** among **5.13 lakh+** participants in a national-level skill assessment.
- **Road Safety Hackathon – NHAH (Top 5%):** Contributed to ideation and technical solution design, achieving a **top 5% national ranking**.
- **HackOdisha – Team Lead:** Led problem formulation, technical execution, and team coordination in a competitive hackathon environment.
- **Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25):** Earned Oracle certification under the Race to Certification initiative, demonstrating knowledge of AI fundamentals, machine learning concepts, and OCI AI services.
- **Web Development Cohort 3 – 100xDevs:** Completed a project-based program focused on full stack development, REST APIs, and system fundamentals.

Education

B.Tech. Computer Science

NIST University, Berhampur

Expected Graduation: 2028

CGPA: 8.43 / 10
